THE POWER TO MOVE

DESIGN. PRODUCTION. SUPPORT.

EMBEDDED RF AUTOMATION SYSTEMS

30
YEARS

DESIGN. PRODUCTION. SUPPORT.

Leave it to us.

Profelmnet has been operating in Greece since 1984 as an innovator in design, development and production of embedded RF automation systems

The company manufactures control panels and transmitters for a large range of uses such as:

| **Swing Gates**

| **Garage Doors**

| **Sliding Gates**

| **Barriers**

| **Rolling Shutters**

| **Awnings**

Profelmnet
THE POWER TO MOVE

R&D - PRODUCTION.

Profelmnet has a vertically-integrated production line, and implement quality assurance procedures covering production conditions and product quality control in all stages of production.

PRODUCTION STAGES:

DESIGN

MOUNTING

WELDING

OPTICAL & QUALITY CONTROL

LIVE OPERATIONAL TESTING

PACKAGING

TECHNICAL SUPPORT.

Our more than 30 years experience in the automation systems, our extensive know-how in manufacturing as well as our philosophy allow us to become a reliable partner for our associates who is able to provide solutions, support and service to the most difficult projects, offering three 24/7 help lines.

Profelmnet
THE POWER TO MOVE

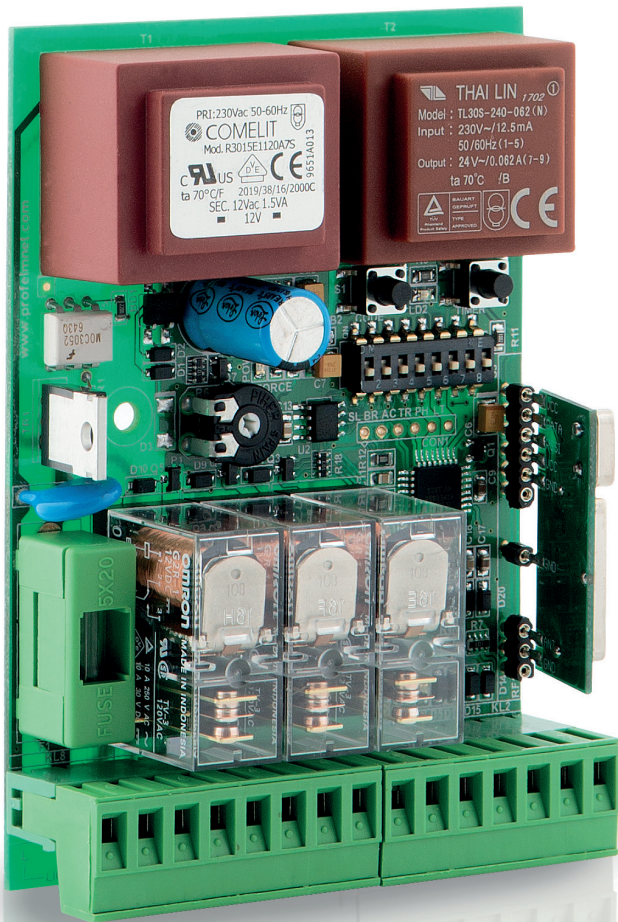

CONTROL PANELS

WE DESIGN & MANUFACTURE

EMBEDDED RF AUTOMATION SYSTEMS

The combination of our high quality hardware and sophisticated software guarantee the long lasting performance of our products in all installations and conditions.

- ✓ ROBUST
- ✓ RELIABLE
- ✓ EASY CONFIGURATION

SERIES-30

The complete range in Control Panels

- State-of-the-art micro-controller with greater tolerance to external noise
- More durable raw materials, in test of time, for the most demanding conditions, procured from reputable suppliers
- Advanced functions that make the automation even easier in programming and faster in installation

TRANSMITTERS

WE DESIGN & MANUFACTURE

UNIQUE COMMUNICATION PROTOCOLS

We present our PN rolling codification and we integrate it in 46T PN transmitters

- ✓ UNIQUE DESIGN
- ✓ MAXIMUM SECURITY
- ✓ LONGER BATTERY LIFE

46T SERIES

The PN series in Transmitters

- Unique algorithm that maximizes security from external violation
- Faster signal transmission through control panel and transmitter
- New unique design available in 3 different colors
- Longer transmitter battery life. Lower power consumption
- No possibility of duplication

COMPLETE MOTOR SOLUTIONS

**WE PROVIDE
COST EFFECTIVE SOLUTIONS**

**WE GUARANTEE
RELIABLE SOLUTIONS**

**SLIDING
GATES**

**SWING
GATES**

**GARAGE
DOORS**

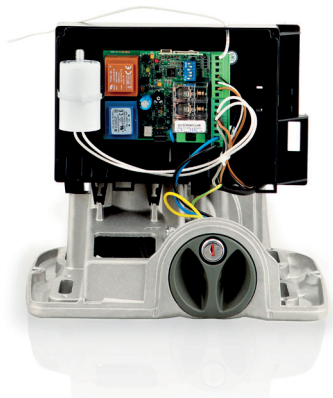

BARRIERS

**ROLLING
SHUTTERS**

AWNINGS

Sliding gate automation for rack-driven gates up to 800kg.

Powerful, quiet, with compact design.

Swing gate automation for gate leaves up to 3.5 m.

Powerful and easy to install. Electromechanical blocked rams, completely in aluminium.

Central motor for sectional or spring balanced garage doors.

Quick & easy programming thanks to the keypad and display screen.

Heavy duty road barrier

Strong and speedy.

Rolling shutter automation for residential or industrial use.

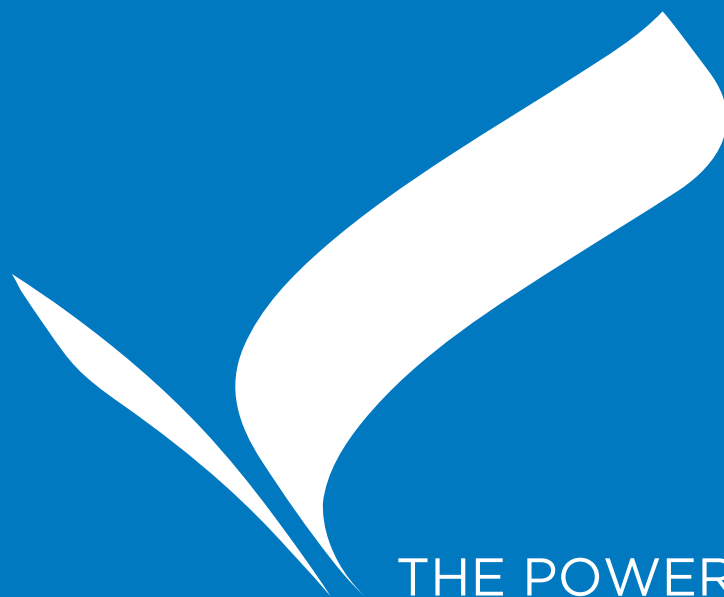

Adjustable inbuilt electromechanical limit stops in opening and closing.

Tubular motors cover a wide range of applications, such as household, industrial shutters & awnings.

Strong, silent and reliable.
